Currently, I'm perusing bachelor's in computer science. I'm an aspiring web developer and a JavaScript enthusiast. I love learning and exploring new technologies and writing functions and efficient code. I've worked on multiple real world projects as a freelance developer. My core skill is Java spring boot and web related technologies.

Skills

My skill set includes java, spring boot, Spring MVC, JavaScript, React.js, MYSQL, Junit Testing, APIs, CRUD operations, HTML, SCSS, CSS, UI/UX, Liferay and libraries like bootstrap.

projects

Web Application
2022-04 – 2022-06

ABC Jobs Community portal

Duration: 2 months.

This project objective was to works similar to LinkedIn it has registration, login page with spiring security and many other interesting functionalities like admin can post jobs, update member, send bulk email whereas user can apply for jobs search other members in the portal and update their profile information, project was made on spring MVC frameworks.

Web Application
2022-07 – 2022-08

ABC Cars portal

Duration: 1 months.

In this project through admin panel website owner is able to manage car details edit them and can manage users' information and can delete user. Whereas user can post car, bid on other cars uploaded by other users in the portal and can edit their own profile information but not car information even uploaded by them only. In all the projects I learned and enjoyed spring MVC frameworks so much and I have completed the projects with all the tech love and enthusiasm.
